
(a) a Hat patch on the lattice
one $B_0\mathbb{Z}^2$ domain
Hat (8 kites)
mystic tile (10 kites)
(b) rolled up: each bond orbit shaded by how often it is a tile boundary
never
always
(c) the twelve orbits, at two patch sizes
a tiling invariant under $B_0\mathbb{Z}^2$: every orbit at 0 or 1
smaller patch (443 tiles)
larger patch (656 tiles)
fraction that are tile boundaries
